

M15 PLUS LAVATESSUTI PROFUMATO

allegriini.
HO.RE.CA. & FACILITIES

LOW-FOAM PERFUMED HYGIENIC DETERGENT FOR EXTRACTION MACHINES

- Pleasantly scented sanitising detergent.
- Removes stubborn dirt from carpets, velvets and alcantara.
- It respects and revives colours.

SUGGESTIONS

Drying times vary greatly depending on the outside temperature; for medium dirt treated with a regular procedure, drying times range from 3 to 6 hours. In the case of very stubborn or old stains it is recommended to pre-treat with the most concentrated product (1:3 with water). After the treatment of velvet and alcantara fabrics, it is essential to comb the fabric to restore the soft touch.

DESCRIPTION

Fabric surfaces in hospitality facilities (sofas, armchairs, carpeted floors) are often catalysts for dust and bacteria, so it is essential to guarantee guests a hygienic and welcoming environment. M15 PLUS, thanks to its innovative, perfumed and concentrated sanitising formula, has been specifically designed for the effective and safe removal of dirt embedded in the deepest fibres of all types of fabric, carpet, velvet and alcantara. Thanks to its Oxyfresh fragrance releases a pleasant scent and eliminates bad smells (such as pet odour) and guarantees excellent cleaning performance while respecting and reviving colours. Use with extraction machines guarantees safe results. It is also ideal for cleaning the fabric surfaces of vehicles dedicated to the guest 'shuttle' service.
